Deutsches IT-Sicherheitszertifikat

erteilt vom Bundesamt für Sicherheit in der Informationstechnik

BSI-DSZ-NESAS-0016-2026 (*)

Converged Telephony Application Server (CTAS), Version R11.1
5G network functions: IMS (only Application Server (AS) function)

from **Mavenir Systems Inc**

The IT product (Converged Telephony Application Server (CTAS)) identified in this certificate has been evaluated by a recognised evaluation facility in accordance with the requirements and regulations of the BSI's own product certification programme "Network Equipment Security Assurance Scheme - BSI NESAS Implementation" (BSI NESAS). The conclusions of the evaluation facility contained in the evaluation report are consistent with the evidence provided. The certification process was carried out in accordance with the requirements and regulations of BSI's own BSI NESAS programme.

(*) This certificate applies only to the specific version and release of the product in its evaluated configuration and in conjunction with the complete Certification Report and Notification. For details on the validity see Certification Report chapter 1.5.

This certificate is not an endorsement of the IT Product by the Federal Office for Information Security or any other organisation that recognises or gives effect to this certificate, and no warranty of the IT Product by the Federal Office for Information Security or any other organisation that recognises or gives effect to this certificate, is either expressed or implied.
